AUTHOR'S NOTES

This information was secured from relatives, if possible; from tombstones; Court House records; personal files; family Bibles; and other sources. These records were compared against each other, particularly dates. Tombstone inscriptions were used if conflicts appeared. Family Bible records, often filled in at a much later date than the occurrence of the event, sometimes was found to be in error.

Court House records being entered close to the time of the event are accepted although spellings are often incorrect and made to fit the fancy of the person making the entry. Nicknames were often used for given names.

Of over two hundred family records searched, their record was equal to any similar group. They did their job when their Nation needed them and they were the pioneers "who were forever going west".

Some names have been unintentionally ommitted, and mistakes missed in the proof reading, so blank pages are added for your own corrections. In the main we have reason to believe we are correct.

A great deal of time, effort and travel expense has been used up in trying to make this a worthwhile effort. Our dream of a family record was started in the early 1930's, little dreaming a family genealogy was so difficult to assemble and be accurate. We enjoyed it a lot, despite the set-backs and disappointments which we think were alleviated by success.

G. Hiram SHUTES was born a SHUTE. Quote "I used a continuous line from the "E" to cross the "T" and it was assumed to be a final "S" and I accepted it too long to change it".
